PROJECT AND EXPERIENCES

- e-commerce mobile application**
Developed using Flutter, with a well-structured UI/UX for an intuitive user experience and integrates with MySQL database to manage all data.
- Interactive portfolio website**
Built using HTML, CSS, and JavaScript where the website focus on clean UI design, smooth animations and easy for visitors to explore my work and connect with me.
- Face Recognition Course Attendance System (Prototype)**
Work in a group to develop an automatic attendance recorder using Laravel and integrates with Laragon database to store student and lecturer data.
